DETAILED ACTION

1. Applicant's arguments filed 10/24/2003 have been fully considered but they are not fully persuasive.

Election/Restrictions

2. Claims 29 and 31 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the paper filed 10/24/2003.

3. Applicant's election with traverse of species a) and c) in the paper filed 10/24/2003 is acknowledged. The traversal is on the ground(s) that the examination of all claims would not be burdensome. This is not found persuasive because the search for the different species are not the same..

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. The rejection of Claims 1-28, 30 and 32-33 under 35 U.S.C. 112, second paragraph, is withdrawn because of the amendment filed 10/24/2003.

Claim Objections

6. The objection of Claim 30 under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim, is withdrawn because of the amendment filed 10/24/2003.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. The rejection of Claims 1-16, 22-24, 26-28, 30 and 32-33 under 35 U.S.C. 103(a) as being unpatentable over EP 1020513, is withdrawn because of the amendment filed 10/24/2003.
9. The rejection of Claims 1-16, 22-24, 26-28, 30 and 32-33 under 35 U.S.C. 103(a) as being unpatentable over Edwards (3694364) is withdrawn because of the amendment filed 10/24/2003.

10. The rejection of Claims 1-16, 22-24, 26-28, 30 and 32-33 under 35 U.S.C. 103(a) as being unpatentable over Edwards (3673110), is withdrawn because of the amendment filed 10/24/2003.

11. Claims 1-16, 22-24, 26-28, 30 and 32-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Johnson et al (5698476).

‘476 teaches a laundry article that comprises a dye absorber such as an ammonium polymer resin, coupled to a fiber support matrix by chemical bonding through an intermediary such as an aziridino crosslinker (4:26-45, Example Set 1).

‘476 does not teach a slot coater to apply the crosslinker and polymer, but it would have been obvious to one of ordinary skill in the art to have selected a conventional means of application such as a slot coater.

The applicant has argued in the 10/24/2003 amendment that the soil absorber and crosslinker are not drawn into the web. However, the examples of ‘476 teach that the laundry additives are padded into the support matrix. ‘476 teaches that “...padding is a process...to force penetration of the liquid into the substrate...”. The padding would have the effect of drawing the soil absorber and crosslinker into the substrate, thus meeting applicant’s claims.

Allowable Subject Matter

12. Claims 17-21, 25 and 34 are allowed.

13. The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not disclose nor suggest the method of claim 1 wherein the dye absorber is a polymeric cyclic amine, wherein the crosslinker is one of those of claim 18, wherein a waxy or hot melt material is additionally added to the substrate, or wherein the dye absorber is aromatic.

Conclusion

14. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
